

## World Environment Day

### 5 JUNE IS WORLD ENVIRONMENT DAY

The theme for World Environment Day 2019 is AIR POLLUTION and events are being held all around the world, especially in this year's host country, China. Events will focus on creating awareness and everyone doing their bit for the Earth.

We would love to hear your ORIGINAL IDEAS for air pollution! Write in to us at [mail@currentkids.in](mailto:mail@currentkids.in) and the top five ideas will win a fantastic insulated, environmentally-friendly bottle from Borosil! Carry your own water to school, on holiday or to a party - cut out those nasty plastic ones and show our planet some love!
